EXPERTISE SKILLS

Programming Languages

- TypeScript
- Sass
- JavaScript
- Node.js
- CSS
- HTML

Libraries and Frameworks

- React
- Redux
- D3.js
- Axios
- Prisma
- Next.js
- Zustand
- EJS
- SWR
- tRPC
- TailwindCSS
- Jotai
- Express
- ReactQuery
- Bootstrap

Tools and concepts

- Git
- Confluence
- REST
- Webpack
- GitHub
- Bitbucket
- GraphQL
- ESLint
- Jira
- Trello
- OOP
- Prettier

ABOUT ME

From early age I've had my first approach to the world of logic reasoning and computers, winning twice the mathematical logical reasoning olympiads in my home country at the age of 13 and 14, developing my first projects at the same age. At the age of 18 I decided to focus on my passion and become a professional Frontend Developer.

PROFESSIONAL EXPERIENCE

Frontend Developer

Flat101, 2022- Present

- Work on big and scalable projects
- Work with a multidisciplinary team (other Frontend Developers, Backend Developers, Project Managers & UX/UI Designers)
- Working as part of an Agile team writing and shipping high quality code frequently in both Node.js and React.
- Use different tools such as Jest, Vitest, Cypress and Playwright to create unit, integration and E2E testing.
- Teach tech courses to other developers on the company to help the team to grow

Tier 2

Fever, 2020- 2022

- People management
- Work with a multidisciplinary team
- Train and help the team to evolve

EDUCATION

Computer Science

Estácio de Sá University, 2020- Present
